**"She Wins, You Win"**

It isn't enough for women to understand and learn men's rules--they must create their own. And the path to success begins with this single most important rule: Every time a woman succeeds in business, every other woman's chance of succeeding in business increases. Every time a woman fails in business, every other woman's chance of failure increases. Join us for an evening of networking and hear author Gail Evans address the key issues of her book.
